

Council – 18 July 2019

Item 14 – General Questions

3. Question from Councillor J.H.J. Doerfel

“In the light of significant concerns that the Council’s proposed ‘Local Green space methodology’ (which was to form part of the Local Plan) will leave 70 out of 71 currently protected urban open spaces (i.e. important green spaces of value to the community across the whole of Spelthorne) without any protection, will Cllr Harvey confirm that these 71 green spaces will remain protected and that none of them will be opened up for development?”

4. Question from Councillor S. Dunn

“In order to facilitate transparency about the Council's significant development plans, and given the time constraints of consultations open for public response, can the Council please provide the consultation documents available for Ceaser Court, Thameside House and other Knowle Green Estates projects on the Council website?”
