

WHAT IS AN LCWIP?

- Local Cycle and Walking Infrastructure Plan (LCWIP).....“*el-swip*”
- The development of LCWIPs form part of DfT’s current investment strategy for cycling and walking to help deliver the Government’s aim of doubling cycling by 2025
- LCWIPs are a new, strategic approach to identifying cycling and walking improvements required at the local level
- Best practice evidence-led method for local authorities to plan both cycling *and walking* infrastructure.
- Plans enable a long-term approach to developing local cycling and walking networks, ideally over a 10 year period

Key outputs of LCWIP plan:

- A prioritised network plan for walking and cycling preferred routes and core zones for further development
- A prioritised programme of infrastructure improvements for future investment
- To make the case for future funding for walking and cycling infrastructure

Further detailed information and guidance on the LCWIP process can be found on the DfT website using the link here: <https://www.gov.uk/government/publications/local-cycling-and-walking-infrastructure-plans-technical-guidance-and-tools>
