### Risk Scoring Matrix (Plotted June 2023 for current RAG rating and current risk score in consultation with Officers)

This is the matrix that forms part of the risk management policy. We currently assess the level of each risk category by plotting them on this matrix to provide a traffic light RAG rating. We also determine a numerical risk score by multiplying likelihood and impact scores. Please also refer to the next page for further detail on the approach and criteria applied.

When assessing the Council's risks in terms of likelihood and impact, we take into account the national and global picture for wider externalities such as the macroeconomic environment and geopolitical factors. Spelthorne's operations remain influenced by these external challenges and pressures, as is the case for other Councils. Due to these externalities, there are many activities that the Council cannot directly control/mitigate, or influence and continued recognition is important. **Red** risks require prompt, planned management action **Amber** risks require planned management action **Green** risks are accepted risks. RC = Risk category on the detailed register e.g., RC2 = Risk Category 2 – Economy. This is also referred to on the matrix for ease of reference.

How risks are scored:

We assess and score risks, with their current controls and current mitigations in place, for likelihood and impact as shown below:

Score	Impact	Likelihood (over 4 years or timescale deemed appropriate)
1	Trivial	Rare (once)
2	Medium	Unlikely (a few times / less than annual)
3	Major	Likely (several times / more than annual)
4	Catastrophic	Almost certain (many times a year)

Impact can be measured in many ways and will be specific to what you are assessing, but the most common are on objectives, finance, and reputation. We then plot the risk on the risk matrix model shown on the prior page to provide a RAG rating, to determine and prioritise the most significant risks for action. The risk action plan (refer to separate document) sets out how the authority is working towards further addressing and mitigating the risks.

### **KEY TO TERMINOLOGY (SEE RISK REGISTER BELOW)**

- Risk is the chance of something happening or not happening that will affect the achievement of corporate priorities and business objectives.
- Controls and Mitigation - Any action taken to manage risk and increase the likelihood that established objectives will be achieved.
- \*Control Actions - These are specific actions to reduce the likelihood of a risk event or occurrence.
- \*\*Mitigating Actions - These are specific actions to reduce the impact of a risk event should it occur.

### Risk Descriptions

1a (i) The delays in decisions, which occurred due to a number of factors, appear to have been a key contributory cause in schemes not taking off/progressing, leading to rising overall costs, and risk of adverse financial position of the Council. **The risk of adverse impact from past delay and any further delay has now increased in the context of rising interest rates and significant construction inflation. The extent to which such variables - interest rates and construction inflation may eventually fall remains uncertain, presenting new options for slowing down scheme delivery and construction in seeking the optimal financial outcome for the Council.**

1a (ii) **Significantly increased interest rates from the Public Works Loan Board (PWLB) and rising inflationary pressures continue to very significantly affect the financial viability of each project going forward, which could further impact delivery of housing schemes and development targets (both affordable and general housing).**

1a (iii) **Market volatility including exchange rate fluctuations are further exacerbating frequent uplift of scheme prices and costs (such as materials / fuel / transportation / labour) leading to delays in finalising contracts and necessitating new approaches to contract management such as open booking accounting. This may provide greater uncertainty in terms of longer-term contract costs and budgetary impact but will enable fair value to be demonstrated.**

1a (iv) Any delays in the examination and adoption of the Local Plan are likely to continue to impact on the ability to bring forward the appropriate quantum of housing development. The publication version of the Local Plan started undergoing an external independent Examination by the Planning Inspectorate in May 2023, and has been deferred following the Extraordinary Council Meeting on 6 June 2023 where it was agreed to pause the Local Plan for three months to enable new Councillor's to review the Plan and process. This further delay to the examination hearings and adoption of the Local Plan runs a number of significant risks including:

## APPENDIX A Corporate Risk Register - Spelthorne Borough Council

- The prospect of additional pressure on our Local Plan to meet the housing need of other boroughs (in particular those neighboring authorities who have not built on greenbelt);
- A lack of certainty around housing delivery (5-year supply);
- Risk of legal challenge;
- The prospect of unsuitable developments coming forward either on green belt sites or within town centres such as Staines, exposing the Council to greater risk of supporting such developments in the absence of a sound plan to rely on. Subsequent increased levels of overall build across Spelthorne carry far reaching implications (environment, infrastructure etc.)

1a (v) Risk of potential uncertainty over future NHS Capital settlement to fund major development.

Risk Descriptions
<p>1b (i) Lack of affordable housing supply increases homelessness</p> <p>1b (ii) Housing provision (types of units) does not meet local resident needs or address client special needs for accommodation. Any delay in adopting the Local Plan does not assist in progressing a wide spread of units for differing needs.</p> <p>1b (iii) The Domestic Abuse Act presents additional pressures and demand as there is a requirement for victims of domestic abuse to be prioritised and rehoused in secure accommodation (parameters of what constitutes domestic abuse expanded under latest legislation)</p> <p>1b (iv) The ongoing conflict in Ukraine and refugee situation, particularly the Government decision to close Afghan Bridging hotels by end of August 2023, presents additional pressures in ensuring that fundamental needs are met in supporting new communities. Spelthorne participates in the Local Authority Housing Fund programme to acquire properties to house homeless refugees. The funding is insufficient to be able to acquire the total number of properties required and the Council has to contribute financially to each purchase. The delivery of the programme will be completed after the closure of the Bridging Hotels, thus there will be a gap period during which time the Council will be required to provide temporary accommodation to homeless households. There is Government funding for temporary placements, however the borough lacks the number of temporary accommodation available for the placements. As a result, the Council is at risk of placing households in properties which are not in the borough and/or unsuitable in other ways. Not only is this disruptive for the households themselves, but the Council potentially faces legal challenge and complaints to the Ombudsman. Spelthorne expects an increased number of homeless approaches from the asylum hotel within the borough as well as other dispersed accommodation, however there is very limited funding available for housing asylum seekers which could adversely impact these communities.</p> <p>1b (v) There is also pressure from neighbouring and London authorities placing households in the borough, often without our knowledge, however the Council has no powers to prevent this. It further reduces supply.</p> <p>1b (vi) Managing demand for social housing is extremely challenging given that anyone with a local connection can apply for housing to any Council.</p> <p>1b (vii) Cost of Living crisis and rising interest rates are adding increased pressure to (a) homeowners and landlords in repayment of mortgages as variable rates spiral. This causes landlords to increase rental charges presenting more homelessness cases (if rents cannot be afforded) with increased demand for social housing.</p>

## APPENDIX A Corporate Risk Register - Spelthorne Borough Council

The above risks lead to increased costs and pressure on the Council's Housing Service in responding to homelessness and growing numbers on the Housing register, impacting delivery of affordable housing provision across the borough. If fundamental housing needs are not met / maintained this may have a negative impact on the health and wellbeing of individuals / families. Legal challenge is likely and an increase in complaints and referrals to the Ombudsman. Furthermore, there is a risk to the health safety and welfare of staff dealing with families in housing crisis as they become frustrated and at times abusive.

As part of the Housing Delivery Programme, Affordable Housing provision extends beyond those development schemes acquired by Spelthorne Borough Council (direct delivery)	Government funding to assist vulnerable families in rent arrears and who are at threat of eviction. Additional support is being provided to vulnerable residents to assist with tenancy sustainment through floating support funded by the government's Rough Sleeping Initiative. Capacity for quality advice provision has been extended for the Citizen's Advice to support the community.
Collaborative working with Registered Social Landlords and Partners to pursue delivery of affordable housing need. Some new developments with affordable housing units are expected later this year through Registered Providers. 22 units are expected later this year from A2D and further 48 units from PA Housing	Collaborative initiatives with Surrey County Council (e.g., Drug and alcohol abuse)
In complying with Homelessness Reduction Act, proactive measures taken to address risk of homelessness	Monitoring of Housing Register levels (currently approx. 3,800 households on the register). Re-registration process will take place this summer in accordance with the new terms of the revised Allocation Policy.
Measures to support Rough Sleepers, Afghan and Ukrainian refugee families under the government funded relocation and assistance scheme, including dedicated support workers. Applying Home Office funding to provide additional support to refugees.	Council applying for maximum grant funding for both Afghan and Ukrainian schemes and looking to put in place wrap around housing support to mitigate as much as possible housing accommodation risk pressures. Discussions underway with the Spelthorne hotel currently housing Afghan refugees in planning future arrangements for housing homeless clients.

Risk Descriptions
<p>Evolving national economic strategy and policy and ongoing recovery from previous pandemic lockdowns continue to impact economic well-being locally, nationally and globally. This is now being compounded by continued impact of the Cost-of-Living crisis. The risk implications and threats to the Council are:</p> <ul style="list-style-type: none"> <li>Residual risk to be accepted – whilst Council actions aim to support businesses and the local economy, these actions alone can only have a limited impact due to the overarching effects and long-term uncertainty of the macroeconomic environment, market volatility and geopolitical factors over which the Council has incredibly little influence.</li> <li>Significant longer-term reduction in income (fees and charges, such as parking and retail lettings of the Elmsleigh Centre) with decreased footfall in the town centres and uncertainty around future consumer activity patterns. This will continue to impact the Council's finances.</li> <li>The potential for increased level of business failures as a result of wider economic instability (inflationary pressures and increase in borrowing) and the need to pass on increased costs to the consumer. This impacts the economic prosperity of the borough and affects collections rates for business rate income, with reduced levels impacting finances and services available.</li> <li>The current economic environment may increase occurrences of anti-social behaviour, theft and fraud</li> </ul>

### Risk Descriptions

4(i) Increased financial pressures faced by the Council arising from the continued inflationary pressures on fuel, gas and electricity, staff pay pressures, slowing down of the housing delivery programme, significantly increased PWLB loan rates and other external factors are collectively causing a significant increase in revenue costs and capital expenditure. This had a significant impact on the Council's balanced budget for 2023/24 and the anticipated budget deficits from 2024/25 to 2026/27.

4(ii) Combined with reduced fee income and potential for lower collection rates of Business Rates and Council Tax (exacerbated further by the Cost-of-Living crisis) this could have an impact on the Council's ability to deliver services as well as creating greater demands on community services, leading to a negative impact on the Borough's residents and communities (economic, social, physical and mental wellbeing). Ongoing financial pressures, in worst case scenario, could lead to the Council becoming financially unsustainable.

4(iii) If the Council's borrowing levels were to become restricted, this could impact how the Council responds to unexpected events or factors presenting uncertainty and therefore its financial resilience. (This risk may also apply to risk category 5)

Risk Descriptions
<p>Climate change represents a significant global threat driving social and economic disruption with far ranging consequences for socioeconomic stability. Climate change and extreme weather events impact health and safety, food systems, supply chains &amp; procurement, economic productivity, and losses. Due to climate change, there is a specific risk to the Borough of Spelthorne in terms of more extreme heat and increased flooding, besides the more global threats such as severe storms (threat to loss of life and limb) impacting locally. If the Council is not pursuing measures or seeking positive opportunities to mitigate and adapt to climate change, it could result in criticism / bad press / public demonstration and additional organisational pressures may result in a loss of focus around climate change and green initiatives. A lack of preparedness for the impacts of climate change may lead to Council Services no longer being sustainable or in a suitable position to operate in the future.</p>

*Current Control Actions (See Key. These are specific actions to reduce the <u>likelihood</u> of a risk event or occurrence)	**Current Mitigating Actions (See Key. These are specific actions to reduce the <u>impact</u> of a risk event should it occur).
<p><u>Targets</u> - In view of Government targets for reducing carbon emissions / greenhouse gases to tackle climate change, the Environment and Sustainability Committee will continue to explore ways to meet a carbon neutral target by 2050 or earlier (Developed an action plan to move the Council towards net zero carbon emissions, agreed at Environment and Sustainability Committee September 2022) and to make recommendations on: (i) How to apply the £747k fund (ii) Promote climate change as an issue that needs to permeate all Council areas to ensure we reduce our carbon footprint and adapt to climate change.</p>

Risk Descriptions
<p>7(i) Overstretched capacity exacerbated by the additional workload, Committee system of governance and demands arising from new schemes / initiatives in supporting communities (as well as the departure of several experienced staff) could lead to increased staff fatigue / burnout / sickness levels arising. This may impact further on employee stress levels and mental / physical wellbeing, which may also lead to reductions in expected service delivery.</p> <p>7(ii) Residual risk refers to the risk that remains after control processes and measures to eliminate some or all the inherent risks have been made. It could be deemed that due to the nature of the risk set out at 7(i) above and 7(iii) below with reference to causes and consequences, as well as the continuation of intense work pressures, some residual risk may continue. In acknowledging this, the Council may wish to either: do nothing on the basis that the controls have proven effective enough to reduce the risk to an acceptable level, OR increase or modify controls to reduce the risk to a level that is regarded acceptable OR evaluate the cost of revised control and mitigation measures vs benefits and whether this is deemed necessary to bring the risk to an acceptable level.</p> <p style="background-color: #00e0ff; padding: 2px;">7(iii) Unsuccessful recruitment and ongoing unfilled vacancies in a challenging and competitive labour market leads to reduced availability of technical skills and relevant expertise is spread more thinly across Services. Staff shortages further exacerbate workload pressures across teams. The consequences of this risk are set out earlier at 7(i).</p> <p>7(iv) Ineffective or inappropriate recruitment exacerbated by the skill shortages within the local government market could result in appointments that fail to effectively meet business need leading to reduced service quality and/or periods of ongoing vacancies.</p> <p>7(v) Alternative patterns of working such as hybrid models may present both risks and opportunities. Some of the perceived risks could include reduced output and productivity, increased fraud, cultural considerations such as silo working resulting in loss of corporate memory/knowledge with less effective outcomes and/or a misalignment with corporate priorities. Positive opportunities associated with hybrid and flexible working include supporting the retention</p>

and recruitment of staff in a highly competitive labour market, greater work-life balance for employees with reduced travel time and consequently a more positive impact on the environment over time (lowering carbon emissions) where road traffic is reduced.

*Current Control Actions (See Key. These are specific actions to reduce the <u>likelihood</u> of a risk event or occurrence)	**Current Mitigating Actions (See Key. These are specific actions to reduce the <u>impact</u> of a risk event should it occur).
<p><u>Performance Management</u> – Continuous performance management (CPM) system includes regular 1-1's with line Managers as well as more formal quarterly performance clinics. Central recording system to summarise discussions with reference to key output areas, effectiveness of outcomes, targets, training and development and any wellbeing matters. Enables HR to keep an oversight track of CPM implementation.</p> <p>Corporate performance management top-down approach incorporates the overarching Corporate Plan priorities and objectives, service plans with kpi's and personal targets. These processes should be closely aligned in supporting delivery of the Council's priorities, objectives, and long-term vision.</p> <p>Benchmarking of some KPI'S across Surrey is in place to ascertain performance levels.</p> <p>With communication platforms like MS Teams and supported systems and technology, staff are fully equipped to work in the office and remotely. Automated internal control processes are important to support modern working practices.</p> <p>Group Head of Commissioning and Transformation issued a Briefing Paper to the March 2023 Audit Committee setting out some of the ways in which this change initiative - Hybrid working is managed at Spelthorne (Hybrid working policy of minimum 2 days required in the office to maintain working relationships, performance management, extent of application dependent on business needs/frontline, individual officer requests etc.) and reinforcing</p>	<p>Reports can be produced to monitor remote activity across the workforce if required.</p> <p>Implementing adequate mechanisms for performance management, monitoring productivity and following through on performance issues are the responsibility of managers across services/teams. Corporate policies to support.</p> <p>Regardless of where services are delivered from (remote vs office), the focus should be on the efficiency and effectiveness of outputs and outcomes in delivering Council services and priorities, ensuring these are provided in a way that supports Council values (PROVIDE).</p> <p>Corporate establishment Review underway incorporates aspects of service delivery and hybrid models of working.</p> <p>In measuring and monitoring the effectiveness of Hybrid Working some considerations include kpi's monitoring, general performance management and complaints monitoring:</p> <p>GH Commissioning and Transformation reported no adverse impact of kpi's performance (for corporate kpi's reported) as a result of hybrid.</p> <p>KPIs are reviewed annually to ensure they are relevant to service delivery.</p> <p>Complaints process to measure any dissatisfaction of customer/public experience, however this mechanism alone may be limited as if there were any increased level of complaints this could also indicate a general societal trend of becoming more comfortable to formally report concerns.</p>

some of the wider benefits that have made this working approach a necessity in the modern world post-pandemic).	
<u>Capacity management</u> – Management to address workload issues across teams, with continued prioritisation of tasks	Staff can access welfare information on the Intranet. Support is available for mental and emotional wellbeing including mental health first aiders and Care First. This scheme has been promoted through regular staff communications.
Responsibility to remain alert to stress related risks of demanding workload.	Monitoring of sickness absence provides a corporate view of stress issues. LGA Peer review presentation/recommendations included references to working culture/workload pressures/organizational style.
The need to treat colleagues respectfully has been recognized and communicated.	Addressed in the LGA Peer review in relation to Councillors and staff.
Corporate values under the acronym 'PROVIDE' form part of the Corporate Plan. Over time it is the intention for the Council's values to become further embedded into behaviours, policy, and processes (including recruitment).	
Annual staff and Member survey commissioned in 2022 designed to ascertain employee and member views on several themes including workplace culture, values, recruitment and retention. Key matters arising from these surveys including organizational behaviours have been highlighted and communicated further as part of the LGA Corporate Peer review.	
Growth bids for additional resourcing form part of annual budget process (moratorium restrictions remain likely going forward).	No net increase in FTE's approved as part of the 2023-24 Budget approved by February Council. Only existing posts to be filled as likely moratorium on new FTE posts will remain.
<p><u>Several recruitment and retention measures</u> have been underway for some time with examples below and developments in some areas:</p> <ul style="list-style-type: none"> <li>i) Recruitment and Retention Policy and Market Supplement Scheme to offer financial enhancements for hard to fill posts which are agreed by MAT.</li> <li>ii) An apprenticeship training programme to upskill existing staff and offer development opportunities to new hirers. As part of the Finance restructure, two apprentice posts have been created. Apprenticeships continue to be encouraged and there may be possibilities for new apprenticeships in customer services.</li> </ul>	<p>February Council approved pay uplift for 2023-24 – a fixed £1,925 per FTE equivalent to an average increase of 3.5%.</p> <p>Corporate Establishment Review underway.</p>

<ul style="list-style-type: none"> <li>iii) An Employee Assistance Programme scheme and Mental First Aider scheme to assist with staff wellbeing. Positive feedback received from staff using these services.</li> <li>iv) Implementation of hybrid working in response to staff feedback and ensuring that staff are fully equipped to work from home. This working pattern continues to be well received and assists with retaining and recruiting staff - important in a competitive market as something to offer potential applicants.</li> <li>v) Flexi time working arrangements.</li> <li>vi) An exit interview scheme routinely offered / undertaken that encourages leavers to engage, providing an opportunity for SBC to learn, improve and apply where appropriate for the future.</li> <li>vii) £1,925 fixed sum agreed across all grades for 2023-24 – proportionally worth more for lower paid staff</li> <li>viii) Members of South East Employers newly formed Reward and Recognition Network to share best practice and to learn from any initiatives taking place elsewhere (this is a work in progress). This highlights that all local authorities are experiencing recruitment issues.</li> <li>ix) Market supplements policy reviewed and refreshed</li> <li>x) Collaborative working and Partnerships being explored with a view to enhancing organisational and service resilience, promoting career opportunities and staff retention measures. It is important to be mindful that staff may fear for their roles/job security, so this is also a contributory factor leading to skilled staff leaving the Council. Reassurance for staff will be provided where appropriate.</li> </ul> <p>To ensure these policies related to recruitment and retention continue to be fit for purpose they have recently been reviewed.</p>

Risk Descriptions
<p>9 (i) The Surrey County Deal presents potential implications for collaborative and partnership working approaches across Surrey Districts and Boroughs in serving local communities, and this continues to be monitored in terms of progress and likely impact across local authority tiers.</p> <p>9 (ii) In the context of wider financial / funding challenges being experienced across local government, there is a greater risk that pressures faced at County Council level may be diverted to districts and boroughs. This could lead to increased workload for smaller authorities like Spelthorne as well as extended complexity and risk in delivering high profile services / operations for which skills and expertise may not be held. (One example relates to Family Support where the volume of County referrals for high need cases have increased significantly, as well as the caseload category exceeding 'level 3').</p> <p>9 (iii) As Surrey County Council draw to an end a number of devolved services and agency agreements (formerly undertaken by Spelthorne), this could lead to reduced service quality in areas such as on-site parking and verge maintenance, impacting local communities and residents. Any transitional arrangements may continue to encroach on Spelthorne Borough Council.</p>
