9.0 MANAGEMENT

9.1 Group Head’s comment/signoff

| Signature/ date | Comments |
|----------------------|--|
| S J Muirhead 24.2.24 | Given the current staffing constraints in the service they perform well and the challenge going forward with the restructure will be embracing change and new systems/technology over next few years |

9.2 Comments/sign off from the Deputy Chief Executive

| Signature/date | Comments |
|---------------------|--|
| Lee O’Neil 24.02.24 | The CS Team provide a range of essential functions, including the collection of Council Tax and Business Rates, and are the interface that many of our customers first deal with when engaging with the Council. Although they have been going through a transition period whilst the structure of the team has been realigned, they have continued to perform well. |

Appendix A SERVICE PLAN TEMPLATE – Risk Appetite

There are numerous Services operating across the Council, possibly with varying risk appetites. Being clear on your Service risk appetite will assist you as Managers in making transparent and informed risk-based decisions as part of service provision and delivery of objectives, as well as ensuring the application of proportionate actions and risk mitigation measures (as far as practical and possible) that align with your appetite.

As an example to assist the risk appetite of the Regeneration and Growth Service sits is outlined below:

| Appetite Category | Minimal | Cautious | Exploratory | Seeking |
|---|---|---|---|--|
| Appetite Description | Areas where Spelthorne will apply a strong control environment to reduce or minimise the likelihood that a risk will occur and/or reduce the impact of any risk | Areas where Spelthorne seeks low-risk delivery options and will pilot innovation only in a controlled environment | Areas where Spelthorne strikes a balance between the potential upside benefits and downside risks of a decision and explores new solutions and options for delivery | Areas where Spelthorne takes risks by working with new ideas and approaches, looking for innovation and recognizing that failures are an opportunity for learning and improving. |
| How are each of these appetites articulated when applied across the RAF impact measure for 'Service Provision' | Services delivered as planned with mandated developments only | Tried and tested changes made. Use of limited pilots to develop new approaches | Open to new ways of doing things and taking a balanced and pragmatic (capacity-driven) approach to making changes | Continuous re-evaluation of services and how they are delivered to explore new ideas, learn from failures to invest in ever-improving delivery |

| | | | | |
|--|----------------|-----------------|-----------------------------------|----------------|
| What is the Council's overall risk appetite for 'Service provision' (CURRENT)? | | X | | |
| Use the information above, review the content within your Service Plan and reflect on your Service approaches to establish where your specific Service risk appetite is currently positioned. Add X | | | | |
| Appetite Category | Minimal | Cautious | Exploratory | Seeking |
| 1.Customer Services | | X | X (digital transformation) | |
| 2. Council tax and NDDR, BID | | X | | |
| Why does your service risk appetite(s) sit against this category? Provide one or two examples of practices and approaches within your Service to support your assessment. For example, if you define your Service(s) to have a minimal or cautious risk appetite is this influenced by a strong regulatory working environment presenting wider implications or repercussions if this appetite category was not adhered to. | | | | |
