

Equality Analysis

Directorate: Corporate Policy and Resources Service Area: Housing Strategy	Lead Officer: Marta Imig Date completed: 24/03/2024
Service / Function / Policy / Procedure to be assessed: Usage of Commuted Sum	
Is this: New / Proposed ☒ Existing/Review ☐ Changing ☐	Review date: n/a

Part A – Initial Equality Analysis to determine if a full Equality Analysis is required.

What are the aims and objectives/purpose of this service, function, policy or procedure?

The aims of the commuted sum is to deliver off site affordable housing.

Please indicate its relevance to any of the equality duties (below) by selecting Yes or No?

	Yes	No
Eliminating unlawful discrimination, victimisation and harassment	✓	
Advancing equality of opportunity	✓	
Fostering good community relations	✓	

If not relevant to any of the three equality duties and this is agreed by your Head of Service, the Equality Analysis is now complete - please send a copy to **NAMED OFFICER**. **If relevant**, a Full Equality Analysis will need to be undertaken (PART B below).

PART B: Full Equality Analysis

Step 1 – Identifying outcomes and delivery mechanisms (in relation to what you are assessing)

What outcomes are sought and for whom?	To provide affordable housing for residents in Spelthorne in housing need and to reduce the numbers on the Housing Register.
Are there any associated policies, functions, services or procedures?	Corporate Plan Health and Wellbeing Strategy Housing Strategy Homelessness Strategy
If partners (including external partners) are involved in delivering the service, who are they?	The properties are to be managed by the Council's owned company, Knowle Green Estates Ltd (KGE).

Step 2 – What does the information you have collected, or that you have available, tell you?

What evidence/data already exists about the service and its users? (in terms of its impact on the 'equality strands', i.e. race, disability, gender, gender identity, age, religion or belief, sexual orientation, maternity/pregnancy, marriage/civil partnership and other socially excluded communities or groups) and **what does the data tell you?** e.g. are there any significant gaps?

General Spelthorne context

According to the Indices of Deprivation 2019, the most deprived borough in Surrey is Spelthorne. Spelthorne has the highest number of lone parent families and the highest level of child poverty in Surrey; it also has the highest under-18 conception rate in the county. That said, residents are largely healthy, with life expectancy for both males and females slightly above the national average.

Spelthorne has a low rate of unemployment: 1.4% of those economically active aged 16 to 64, compared to the South East (2.2%) and UK as a whole (3.5%). Heathrow Airport is a significant local employer, with 8.3% of Spelthorne's working population employed there. Significantly, 21.5% of those in work in Stanwell North are in low level employment compared to an average of 11.6% in Surrey. Average wages are slightly above regional averages at £630 per week for full-time employees.

Whilst house prices remain well above the national average, most residents are owner-occupiers (73%), followed by private rented (13%) and social rented (12%).

We're awaiting the full release of the 2021 census data so existing data is based on the 2011 census. First release of the new census data highlights a population increase in Spelthorne by 7.7%, from around 95,600 in 2011 to 103,000 in 2021. Spelthorne is the 14th most densely populated of the South East's 64 local authority areas with 2,295 of residents per square kilometre. Initial data also provides updates to both categories of age and sex as outlined below.

Gender / gender identity

Census data from 2021 shows that 50.9% of residents in Spelthorne were female, with the remaining 49.1% being male. There is no data known to be held in relation of other gender identities.

Source: ONS Census, 2021 – Population and household estimates, England and Wales: Census 2021

A White Paper published in December 2018 (Help shape our future: the 2021 Census of population and housing in England and Wales) set out the ONS recommendation for what the census should contain and how it should operate. The White Paper recommended that the census in 2021 include a question about gender identity, asking respondents whether their gender is the same as the sex they were registered as at birth. The question is separate from the question about sex (i.e., whether the respondent is male or female), which is phrased in the same way as previous years. There is currently no official data about the size of the transgender population (the word 'transgender' is used here to describe people whose gender identity does not match the sex they were assigned at birth). The Government Equalities Office (GEO) has said that there may be 200,000 to 500,000 transgender people in the UK, but stresses that we don't know the true population because of the lack of robust data. The ONS has identified user need for official estimates in order to support policy-making and monitor equality duties and has added a voluntary question on gender identity for people age 16 years and over. The 2021 data set has not yet been published by the ONS.

Age

Spelthorne has a slightly lower population of under-30s (33%) compared to the rest of the country (36%), and a slightly higher population of 30-69 year olds (53%) compared with the national average of (51%). The number of 70+ is 14%, which is broadly in line with the rest of the nation.

Source: ONCS Census, 2021 – Population and household estimates, England and Wales: Census 2021.

Ethnicity

The ethnic make-up of Spelthorne is largely in line with the UK average, although we have more residents who identify as Asian and fewer residents who identify as Black than the national average.

Ethnic group	Spelthorne		Region	UK
	Number	%	%	%
White	83,455	87.3%	90.7%	87.2%
Mixed	2,382	2.5%	1.9%	2.0%
Asian	7,295	7.6%	5.2%	6.9%
Black	1,545	1.6%	1.6%	3.0%
Other	921	1.0%	0.6%	0.9%
Total	95,598	100.0%	100.0%	100.0%

Source: <https://commonslibrary.parliament.uk/home-affairs/communities/demography/constituency-statistics-ethnicity/>

Disability

As of July 2019 there were around 2,020 PIP claimants in Spelthorne constituency. In comparison, there was an average of 2,500 claimants per constituency across the South East. Within Spelthorne, psychiatric disorders were the most common reason for claiming PIP. They accounted for 37% of awards, compared to 36% in Great Britain. 'Psychiatric disorders' include anxiety and depression, learning disabilities and autism. The second most common reason for awards was musculoskeletal disease (general), which accounted for 17% of awards within the constituency and 21% in Great Britain. Musculoskeletal disease (general) includes osteoarthritis, inflammatory arthritis and chronic pain syndromes.

<http://data.parliament.uk/resources/constituencystatistics/personal%20independence%20payment/PIP%20claimants%20in%20Spelthorne.pdf>

Religion

Residents of Spelthorne predominately identify themselves as either Christian or having no religion. There is a smaller Muslim population compared with the national average, but a larger Hindu and Sikh population.

	Constituency		Region	UK
	Number	%	%	%
Has religion	67,392	70.5%	65.0%	66.7%
of which				
Christian	60,954	63.8%	59.8%	58.8%
Muslim	1,808	1.9%	2.3%	4.5%
Hindu	2,332	2.4%	1.1%	1.4%
Buddhist	420	0.4%	0.5%	0.4%
Jewish	206	0.2%	0.2%	0.4%
Sikh	1,325	1.4%	0.6%	0.7%
Other	347	0.4%	0.5%	0.4%
No religion	21,511	22.5%	27.7%	26.1%
Not stated	6,695	7.0%	7.4%	7.2%

Source: <https://commonslibrary.parliament.uk/home-affairs/communities/constituency-data-religion/>

Sexual orientation

There is no accurate dataset which can be used to reflect solely Spelthorne. The White Paper recommends asking a new question about sexual orientation. The ONS has identified a user need for better data on sexual orientation – particularly for small areas – to inform policy-making and service provision, as well as monitoring equality duties. The ONS has previously used the Annual Population Survey (APS) to estimate the size of the lesbian, gay and bisexual (LGB) population in the UK. According to these estimates, just over 1 million people

identified as LGB in 2016 (around 2% of the population). However, the sample population used in the APS isn't big enough to provide robust estimates of the LGB population in smaller areas.

Marriage / Civil Partnership

More people in Spelthorne are married compared to the rest of England and Wales, and fewer people identify as single.

Marital Status	Spelthorne		England and Wales	
All usual residents aged 16+	78,089		45,496,780	
Single (never married or never registered a same-sex civil partnership)	24,562	31%	15,730,275	35%
Married	38,984	50%	21,196,684	47%
In a registered same-sex civil partnership	153	0%	104,942	0%
Separated (but still legally married or still legally in a same-sex civil partnership)	2,042	3%	1,195,882	3%
Divorced or formerly in a same-sex civil partnership which is now legally dissolved	6,870	9%	4,099,330	9%
Widowed or surviving partner from a same-sex civil partnership	5,478	7%	3,169,667	7%

Has there been any consultation with, or input from, customers / service users or other stakeholders? If so, with whom, how were they consulted and what did they say? If you haven't consulted yet and are intending to do so, please list which specific groups or communities you are going to consult with and when.

n/a

Are there any complaints, compliments, satisfaction surveys or customer feedback that could help inform this assessment? If yes, what do these tell you?

n/a

Step 3 – Identifying the negative impact.

a. Is there any negative impact on individuals or groups in the community?

Barriers:

What are the potential or known barriers/impacts for the different 'equality strands' set out below? Consider:

- **Where** you provide your service, e.g. the facilities/premises;

- **Who** provides it, e.g. are staff trained and representative of the local population/users?
- **How** it is provided, e.g. do people come to you or do you go to them? Do any rules or requirements prevent certain people accessing the service?
- **When** it is provided, e.g. opening hours?
- **What** is provided, e.g. does the service meet everyone's needs? How do you know?

* Some barriers are justified, e.g. for health or safety reasons, or might actually be designed to promote equality, e.g. single sex swimming/exercise sessions, or cannot be removed without excessive cost. If you believe any of the barriers identified to be justified then please indicate which they are and why.

Solutions:

What can be done to minimise or remove these barriers to make sure everyone has equal access to the service or to reduce adverse impact? Consider:

- Other arrangements that can be made to ensure people's diverse needs are met;
- How your actions might help to promote good relations between communities;
- How you might prevent any unintentional future discrimination.

Equality Themes	Barriers/Impacts identified	Solutions (ways in which you could mitigate the impact)
Age (including children, young people and older people)	Significant number of children staying in the Temporary Accommodation for a long period of time. The uncertainty of living situation have detrimental impact on children's development.	The provision of settled accommodation would improve children's wellbeing.
Disability (including carers)	Anecdotally we know that physically disabled people accessing settled accommodation in Spelthorne have much more limited options available to them due to property adaptation requirements.	This programme would enable access to the settled accommodation for disabled families, without the need to compete for properties on privately rented market.
Gender (men and women)	No restrictions on gender are identified.	Access to property is enabled for both male and female.
Race (including Gypsies & Travellers and Asylum Seekers)	Recent surveys show that people face discrimination on the basis of their race or income when renting a property on a private rented	The properties acquired under this programme will be allocated fairly by the Council.

	market. Our experience in supporting families into privately rented sector unfortunately also confirms the same.	
Religion or belief (including people of no religion or belief)	No restrictions identified	n/a
Gender Re-assignment (those that are going through transition: male to female or female to male)	No restrictions identified	n/a
Pregnancy and Maternity	No restrictions, but the size of the property will need to be considered to meet the need of the expecting family.	n/a
Sexual orientation (including gay, lesbian, bisexual and heterosexual)	No negative impacts identified	n/a

Step 4 – Changes or mitigating actions proposed or adopted

Having undertaken the assessment are there any changes necessary to the existing service, policy, function or procedure? What changes or mitigating actions are proposed?

No changes required.

Step 5 – Monitoring

How are you going to monitor the existing service, function, policy or procedure ?

The delivery of the programme will be monitored by the Strategic Housing Group and all properties proposed for acquisition will be presented to Members for decision prior to acquisition.

Part C - Action Plan

Barrier/s or improvement/s identified	Action Required	Lead Officer	Timescale
